The fifth annual joint US-France symposium on *International Conference on Applied Computational Mechanics* (ICACM) hosted and organized by Rutgers University will be held between June 11th to 13th, 2012 at New York City.

The focus of the symposium will be on the latest advances in applied and computational mechanics with special emphasis in the areas of: (1) Energetic Materials; (2) Meta-materials; and (3) Coupled Phenomena. The workshop will feature invited talks on progresses in multi-scale and multi-physics modeling with special emphasis on state-of-the-art materials research.

For further information please contact either Alberto Cuitino (cuitino@gmail.com) or Abilash Nair (an319@rci.rutgers.edu). Links for registration and conference agenda are available at <http://icacm2012.org>

Due to a limited availability for housing we recommend registration on or before **April, 30th 2012**.
