

OPEN HOUSE

SIMMONS MECHANOBIOLOGY LAB

WHEN

9/4, 10/2, 11/6
5:30pm - 6:30pm

WHERE

Nuclear Science Bldg
NSC 512

CURRENT WORK

Model Systems of Mammalian Regeneration

Strain-Mediated Activation of Skin Regeneration and Fibrosis

Measurement of Contractility-induced Residual Stress for Tissue Engineering

Mechanisms and Treatment of Cardiac and Skeletal Muscular Dysfunction in Barth Syndrome

Experimental and Computational Models of Desmoplastic Tumors

**ALL
STUDENTS
WELCOME**
